- **LOAN CATEGORY REVIEW.**
Are you missing out on loans because your members are taking their lending needs down the street? Team up with a Lender*VP expert to review your lending "big picture". Once you compare your lending line-up with your competition, and with other CU*Answers clients, you can make plans to capitalize on opportunities.
- **LOAN PRODUCTS REVIEW.**
Have you configured risk based pricing, loan officer checklists, taken advantage of offering loans online (with or without a discount), configured loan insurance and miscellaneous insurance products, flexible terms and more?
- **COLLECTION CONFIGURATION.**
Are you maximizing your collections potential? Your Lender*VP team can show you how "tweaking" your Collection Configuration can supercharge the profitability of this department.
- **MARKETING CLUB REBATE.**
Are your rebate parameters producing maximum results? Marketing clubs provide an excellent way to build member loyalty. Not rebating enough can be worse than rebating too much.
- **VARIABLE RATE CODES.**
Do you offer variable rate loans today? Are you taking advantage of updating variable rates, contracts, mini-contracts or rate codes? What does it all mean and how can it positively impact my bottom line?
- **PRIME ALLIANCE/REAL ESTATE.** The Prime Alliance partnership enables you to offer on-line mortgage applications 24/7. Since more and more members are choosing the on-line option, you may be missing out on opportunities to serve your best members. Prime Alliance offers several levels of participation, plus they provide disclosure information and management reports.
- **DECISION MODEL.** 247 Lender enables you to make automatic decisions on the very best and very worst applications, from any delivery channel you choose. This enables your lending staff to concentrate on those potential money-makers that require underwriting judgment.
- **CROSS SALES.** The best source for "new business" is with your current members. Everyone in your organization that meets or talks with members must be skilled in cross selling. Help your staff tune in on opportunities by making use of Cross Sales tools.

the 5,000 Mile
